We at B-SAFE have always tried to keep our price as low as we possibly could and continue to operate a safe and educational alternative to the "high priced" driving schools in our area.

As every one of us that have to purchase gasoline, we are going to be faced with the possibility of huge increases in the price of gasoline in the next few months. We therefore are putting in place a "gas surcharge" clause in our contracts. We do not want to raise our price, nor do we want to automatically add a gas charge unless it is found to be needed. Therefore the following plan is put in place to cover the increase in gasoline charges if it should come about.

- Each student will be required to pay an additional fee if prices rise as follows:
 - \$3.75 per gal. \$10.00
 - \$4.00 per gal \$15.00
 - \$4.50 per gal \$20.00
 - \$5.00 per gal \$25.00

This is a onetime only charge and you will be given the opportunity to pay the price at the time of scheduling the in-car or the price at the time of the actual scheduled date of the in-car.

This additional fee will not go in to effect unless the price of gasoline does increase to these amounts.

We truly regret having to add this increase on to our regular price, but we must be able to continue to give the students as much on road experience as they deserve and need, to become a safe and responsible driver.

As parent or guardian I do understand these terms and agree to them.
